

MASTERING POWERPOINT SLIDES

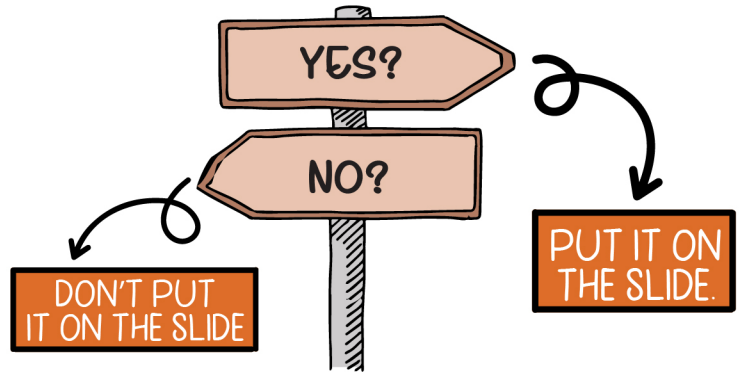

TIP1

LESS IS MORE

Only give your audience what they NEED to know.

DO THEY NEED TO KNOW THIS?

TIP2

USE THE RIGHT VISUAL

Don't just use A visual
use the RIGHT visual.

TIP3

SUPPORTIVE SLIDES

Make your slides support
your presentation.

Avoid PowerPoint
karaoke.

TIP4

USE FONTS WISELY

Make sure they are easy to read

TIP6

EDIT! THEN EDIT AGAIN.

Get two people to review
your slides

Act on the feedback.

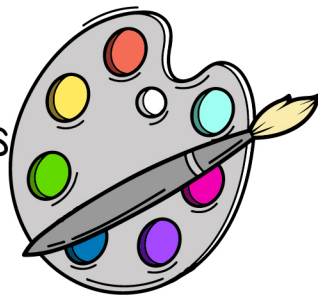

TIP5

USE THE PROPER COLOURS

Too many colours
can be overwhelming

Use contrasting colours
for text/background.

TIP7

MASTER YOUR TRANSITIONS

Treat each slide
like a presentation
in miniature

Give it a beginning, a middle, and an end.
